AMENDMENTS TO THE SPECIFICATION:

Please REPLACE the paragraph [0011], with the following rewritten paragraph:

[0011] A user connected to SIP based communication system may generally communicate with various entities of the communication system based on ~~standardised~~standardized SIP messages. SIP is typically defined in an Internet Engineering Task Force (IETF) protocol specification by G Rosenberg et al., titled: "SIP: session initiation protocol" RFC 3261, ~~July 2001~~June 2002. This document is herein incorporated by reference in its entirety.
